VICTORIA GARDEN PHLOX

Phlox paniculata 'Victoria'

Texas Superstar Perennial  **Pollinator Friendly**

Full Sun **Water:** Medium, drought tolerant

3' Tall x 2' Wide **Color:** Magenta Pink

Blooms early summer to September

Grown by a Denton County Master Gardener

General Information

Reliable perennial Texas Superstar® that blooms in tall showy clusters from early Summer until frost, despite heat and humidity. Less dense habit than 'John Fanick' phlox. Attracts butterflies and hummingbirds.

Characteristics

Hardiness Zones: 4-8

Size: 1.5-2 ft. w x 2-3 ft. h

Flowers: Purple, in clusters

Bloom Time: Early Summer to Fall

Leaves: Medium green, slightly waxy

Growth Habit/Shape: Tall clump, staking not needed

Dormancy: Winter

Soil Requirements: Free draining

Propagation: Division in Spring or stem cuttings in early Summer

Indoor/Outdoor: Outdoor

Pests and Diseases

Phlox bugs, powdery mildew, root rot, spider mites

Plant Care

Cut back by 1/3 after first flush to encourage more blooms. Medium water requirements, avoid overhead watering to discourage mildew, use mulch to conserve water and cool the root zone.

Notes

Prune to ground after frost.
